

## Participant Guide 2nd Edition

*I was born at a time when people were still farming and everybody had large gardens and we ate directly from the gardens, and life in general was fairly happy. If you were looking from the outside into our communities, you would maybe see that our communities were impoverished - meaning that we didn't have a lot of material things. But we had a lot of other things. And one of the things that we did have was good healthy food, good healthy water, and so forth, which is very different from what we see today.*

- Clayton Brascoupe, Traditional Native American Farmers Association

FIRST NATIONS  
DEVELOPMENT INSTITUTE

## ACKNOWLEDGMENTS

This project was made possible with support from the USDA - NIFA Beginning Farmer and Rancher program, W.K. Kellogg Foundation and the CHS Foundation. We thank our funders for their support but acknowledge that the findings and conclusions presented in this publication are those of the authors alone, and do not necessarily reflect the opinions of our funders. This curriculum was written by John Phillips, consultant for First Nations Development Institute. We thank all of the tribal college programs that worked with us on this project and thank the leadership at Aaniiih Nakoda College, Blackfeet Community College and Fort Peck Community College.
