to strengthen American Indian economies to support healthy Native communities. We invest in and create innovative institutions and models that strengthen asset control and support economic development for American Indian people and their communities.
O U R A P P R O A C H

First Nations has always been exclusively committed to Native control of tribal assets and to restore control and promote culturally-compatible stewardship of those assets.

A S S E T - B U I L D I N G D E F I N E D

A positive and collaborative approach, asset-building focuses on cultivating traditional knowledge and practices, and creating new ones to build Native capacities, capabilities and communities.

W H Y A S S E T - B U I L D I N G W O R K S

Native nations are uniquely knowledgeable about their own communities. They know the strengths, challenges and needs of their communities better than outside agencies. It strengthens the effectiveness of Native nations to create solutions to their own challenges and allows them to best leverage their resources on their own terms. In brief, in the long term it works because it helps protect and enhance tribal sovereignty.

Native Language Immersion Initiative
Program Background

The Native Language Immersion Initiative (NLII) originally launched in 2017 as a three-year investment by the National Endowment for Humanities to build on longtime efforts by First Nations to support the revitalization and perpetuation of Native languages. The program is designed specifically to build the capacity of and support Native language immersion programs in tribal communities.

At a Glance:

• The first cycle of NLII grants was awarded in 2018. Two cycles were awarded in 2019.

• In 2020 the initiative was formally extended to a fourth year with the support of NEH and additional funders and donors.

• Between 2018-2021 more than 30 Native organizations and tribes have received over $4 million in funding to build the capacity of and directly support their Native language immersion programs.

In addition to direct financial resources, this initiative seeks to build a dialogue and community of practice among Native language immersion grantees and build momentum for supporting Native language programs. Grants for the 2022 cycle are made possible thanks to generous support from the NoVo Foundation.
First Nations expects to award up **5 to 8 grant awards ranging from $45,000 to $75,000** to build the capacity of and directly support Native language immersion programs.

- Applicants must be existing Native language immersion programs.
- Applicants must meet minimum program eligibility requirements for consideration.

Priority will be given to programs with long-term community-based language plans.
