Our Core Programs

Achieving Native Financial Empowerment
Native financial and investor education, consumer protection and financial fraud education, combating predatory lending and research.

Nourishing Native Foods and Health
Native food systems, food security, health and nutrition and food sovereignty efforts.

Stewarding Native Lands

Strengthening Tribal and Community Institutions
Nonprofit capacity-building activities, support for Native arts, Native language immersion, professional development and coalition building.
OUR APPROACH

First Nations has always been exclusively committed to Native control of tribal assets and to restore control and promote culturally-compatible stewardship of those assets.

ASSET-BUILDING DEFINED

A positive and collaborative approach, asset-building focuses on cultivating traditional knowledge and practices, and creating new ones to build Native capacities, capabilities and communities.

WHY ASSET-BUILDING WORKS

Native nations are uniquely knowledgeable about their own communities. They know the strengths, challenges and needs of their communities better than outside agencies. It strengthens the effectiveness of Native nations to create solutions to their own challenges and allows them to best leverage their resources on their own terms. In brief, in the long term it works because it helps protect and enhance tribal sovereignty.
Our Strategies
How Change Happens

Our strategies are designed to support the entire ecosystem of transformative change in Native communities and build a network of grantee partners that ultimately leads to asset-building in Native communities.

NAFSI’s Strategy

**Native Nationhood**
- Native communities create policies and programs aimed at Native food-system control and build strong Native institutions and governance capacity.

**Culture**
- Traditional agriculture practices revitalize ceremonies of planting seasons, build the social bonds of the production process and strengthen the relationship of Native peoples to the land that sustains us.

**Health**
- Increasing access to locally produced healthy foods will reduce diet-related diseases and improve the health of Native peoples.

**Economic Development**
- The development and cultivation of food markets and businesses foster the entrepreneurial spirit of Native peoples that leads to economic development.
